

# XKMH Lite

Infinite Power  
Endless Enjoyment

Wall-Powered Electronic Heat Management Device

## Instant Plug-In Operation

Enjoy uninterrupted sessions with direct plug-in power. No charging, no battery replacement, just plug in and enjoy. The magnetic plug connects effortlessly, delivering stable performance whenever you are ready to smoke.

## Precision Control Clear Feedback

Select from 11 temperature levels between 260°C and 310°C with the illuminated dial, while the LED progress ring provides real-time visual guidance on preheating progress, readiness status, and remaining session time.

## Tri-Heat Technology

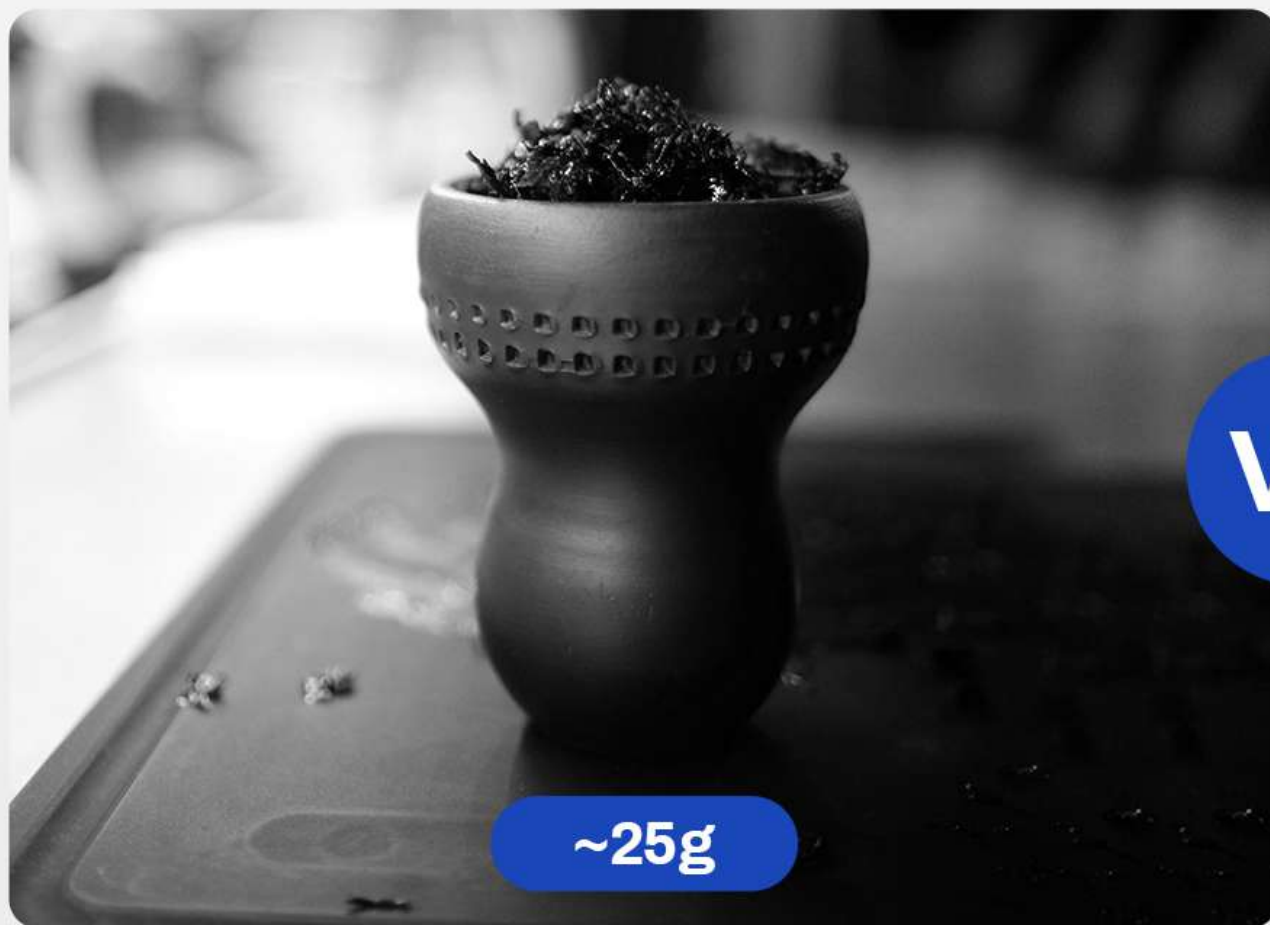

Combining conduction, convection, and radiant heating, Tri-Heat Technology helps maintain stable temperature throughout the session. The result is consistent smoke density, balanced flavor, and a smoother experience from start to finish.

## Spend Less. Earn More

XKAH Lite is designed to deliver rich flavor using significantly less tobacco than traditional charcoal setups. By improving heating efficiency and eliminating charcoal consumption, it helps reduce ongoing costs while maintaining a satisfying session experience.

VS

## Quick-Clean Design

The removable top cap and silicone components make cleaning simple and efficient. Spend less time on maintenance and keep your device performing at its best with minimal effort.

\*Tips: Always clean the device after use for best performance.

## Pure Flavor. No Charcoal

Compatible with virtually any tobacco blend, XKAH Lite gives users the freedom to explore their preferred flavors. Charcoal-free heating helps preserve natural tobacco notes while reducing burnt or smoky aftertastes.

## Beginner-Ready Auto Mode

Auto Mode automatically applies XKAH's optimized heating profile for a smooth and balanced session. No temperature adjustments are required, making it easy for both first-time users and experienced enthusiasts to enjoy consistent results.
